

Note di Matematica

Volume 40, number 2, 2020

M. FERRARA, M. TROMBETTI: <i>A local study of group classes</i>	1
M. CHOULLI, G. METAFUNE: <i>Two-sided Gaussian bounds for fundamental solutions of non-divergence form parabolic operators with Hölder continuous coefficients</i>	21
N. HOSEINI, F. SAEEDI: <i>Second cohomology of multiplicative Lie rings and Schreier's extension theory</i>	37
M. MERCA: <i>Connections between Fibonacci and Pell numbers</i>	53
A.C. CAVALHEIRO: <i>Existence and approximation of solutions for a class of degenerate elliptic equations with Neumann boundary condition</i>	63
S. DANESHI, A. NEZAKATI, S.TAHMASEBI, M.LONGBARDI: <i>Inaccuracy measures for concomitants of generalized order statistics in Morgenstern family</i>	83
M. AFKHAMI: <i>On the edge metric dimension and Wiener index of the blow up of graphs</i>	99
S. BOSTAN, D. ESPOSITO: <i>On subgroups normalized by the base group in monomial groups, and their centralizers</i>	111
