

B I B L I O G R A F I A

La bibliografia si riferisce alla parte generale e agli articoli direttamente citati.

Chi fosse interessato ad una Bibliografia completa in Analisi Nonstandard può scrivere (mandando un dollaro) a:

D. RANDOLPH JOHNSON, Dept. of Math. and Statistics,
University of Pittsburgh, Pittsburgh, Pennsylvania 15260.

PARTE GENERALE.

- [1] M. DAVIS, Applied Nonstandard Analysis, Wiley & Sons (1977)
- [2] A. GIANNONE, Un'introduzione ai metodi non-standard attraverso le misure semplicemente additive, Period. di Matem. (in corso di stampa).
- [3] H.J. KEISLER, Foundations of Infinitesimal Calculus, Prindle, Weber (1976).
- [4] G. LOLLI, Non-standard Analysis, Annual meeting of GNAFA, Rimini (1977).
- [5] W.A.J. LUXEMBURG, What is Nonstandard Analysis? MAA Monthly vol. 80 .
- [6] A. ROBINSON, Nonstandard Analysis, North-Holland.
- [7] K.D. STROYAN-LUXEMBURG, Introduction to the Theory of Infinitesimals, Academic Press (1976).

ARTICOLI CITATI.

- [8] ABSTRACTS of LECTURES from the Iowa Workshop and Symposium on Abraham-Robinson's Theory of Infinitesimals (June 1977).
- [9] R.M. ANDERSON, Star-finite Probability Theory, PhD Thesis, Yale University (1977)
- [10] - - - - - , A Nonstandard Representation for Brownian Motion and Itô Integration, Israel J. Math. (1976) pp. 15-46.
- [11] - - - - - , Star-finite Representation of Measure Spaces, to appear.

- [12] R.M.ANDERSON, Weak Convergence of Conditional Random Walks, in preparation.
- [13] - - - - -, Edgeworth's Conjecture in Economies with Classes, to appear.
- [14] R.M.ANDERSON-S.RASHID, A Nonstandard Characterization of Weak Convergence, to appear in Proc. AMS.
- [15] S.BANACH, Sur le problème de la mesure, Fund. Math. 4 (1923) 7 - 33 .
- [16] A.R.BERNSTEIN-F.A.LOEB, A Nonstandard Integration Theory for unbounded functions. Victoria Symposium on Nonstandard Analysis, Springer Lectures Notes in Math. 369 (1974).
- [17] A.R.BERNSTEIN-F.WATTENBERG, Nonstandard Measure Theory, Application of Model Theory to Algebra, Analysis and Probability, Holt Rinehart & Winston (1969) pp. 171-185.
- [18] BONACINI-MELONI, Teoria non-standard delle probabilità, Rend. Ist. Lombardo Sc. Lett., 108 (1974) pp. 811.
- [19] D.BROWN-A.ROBINSON, Nonstandard Exchange Economies, Econometrics 43 (1974) pp. 41-55.
- [20] - - - - -, The Cores of Large Standard Exchange Economies, J.Economic Theory, 9 (1974) pp. 245-254.
- [21] F.CHERSI, Finitely additive invariant measures, Boll. UMI (5) 15A (1978) pp. 176-179.
- [22] de FINETTI, Probability, Induction and Statistics, J. Wiley & Sons, London, New York, (1972).
- [23] N.DUNFORD-J.T.SCHWARTZ, Linear operators, Part I (1958).
- [24] P. HALMOS, Measure Theory, Van Nonstand (1950).
- [25] W.HENSON, On the Nonstandard Representation of Measures, Trans. Amer. Math. Soc. 172 (1972) pp. 437-446.
- [26] - - - - -, Unbounded Loeb Measures, to appear.
- [27] - - - - -, Analytic sets, Baire sets and the standard part map, to appear.
- [28] H.J.KEISLER, Infinitesimal Difference Equations and Stochastic Processes, to appear.
- [29] - - - - -, Hyperfinite Model Theory, Logic Colloquium'76, North-Holland, Gandy-Hyland (Eds.) (1977).

- [30] P.LOEB, Conversion from Nonstandard to Standard Measure Spaces and Application in Probability Theory, Trans. A.M.S. 211 (1975) pp.113-122.
