

## RIASSUNTO

### ***Bibliografia geobotanica della Puglia (Sud-Italia).***

Il presente lavoro contiene la bibliografia botanica riguardante la Puglia dal 1753 al 1990. Accanto alla lista bibliografica principale sono state aggiunte tre appendici: App. A: Segnalazioni Floristiche Italiane, 1978-1990; App. B: Numeri cromosomici per la Flora Italiana, 1970-1990; App. C: Schedae ad Floram Italicam Exsiccataam, 1905-1927.

## SUMMARY

### ***Geobotanical Literature of Apulia (South Italy).***

The present paper includes the botanical literature concerning plant geography, plant taxonomy, ecology, etc. of Apulia published from 1753 to 1990, and regarding all taxonomical groups excluding mushrooms and lichens. Only papers dealing with Apulia have been considered; moreover, papers on plant pathology, agriculture and forestry have been excluded except those including floristic lists or vegetation descriptions. All the references were labeled with 16 different subject categories and grouped in 8 geographical clusters according to the lists at pages 6 - 7.

An asterisk \* indicates papers which have not been seen by the authors.

Three appendixes have been added beyond the main bibliographical list: App. A (List of Apulia species mentioned in the series "Segnalazioni Floristiche Italiane", 1978-1990; App. B (List of chromosome numbers of Apulia plants published in the series "Numeri cromosomici per la flora italiana", 1970-1990; App. C (List of Apulia species mentioned in the "Schedae ad Floram Italicam Exsiccataam" 1905-1927.

A list of literature examined and seven indexes (of subjects concerning the main bibliographical list, of mentioned authors, genera and geographical list regarding both the main bibliographical list and appendixes) have been added.
